# TABLE OF CONTENTS

	<i>Page</i>
<b>FOREWORD</b> .....	<b>(ix)</b>
 <b>AIRCRAFT OPERATING PROCEDURES</b>	
<b>Section 1. Definitions, abbreviations and acronyms and units of measurement</b> .....	<b>1-(i)</b>
Chapter 1. Definitions.....	1-1-1
Chapter 2. Abbreviations and acronyms .....	1-2-1
Chapter 3. Units of measurement.....	1-3-1
<b>Section 2. Altimeter setting procedures</b> .....	<b>2-(i)</b>
Chapter 1. Introduction to altimeter setting procedures .....	2-1-1
Chapter 2. Basic altimeter setting requirements .....	2-2-1
2.1 General .....	2-2-1
2.2 Take-off and climb .....	2-2-2
2.3 En route .....	2-2-3
2.4 Approach and landing.....	2-2-3
2.5 Missed approach.....	2-2-3
Chapter 3. Procedures for operators and pilots .....	2-3-1
3.1 Flight planning.....	2-3-1
3.2 Pre-flight operational test .....	2-3-1
3.3 Take-off and climb .....	2-3-2
3.4 En route .....	2-3-3
3.5 Approach and landing.....	2-3-3
Chapter 4. Altimeter corrections.....	2-4-1
4.1 Responsibility .....	2-4-1
4.2 Pressure correction .....	2-4-2
4.3 Temperature correction.....	2-4-2
4.4 Mountainous areas — En route .....	2-4-4
4.5 Mountainous terrain — Terminal areas.....	2-4-5

<b>Section 3. Simultaneous operations on parallel or near-parallel instrument runways .....</b>	<b>3-(i)</b>
Chapter 1. Modes of operation.....	3-1-1
1.1 Introduction .....	3-1-1
1.2 Modes of operation.....	3-1-1
1.3 Operational approval .....	3-1-2
1.4 Parallel approach operations.....	3-1-3
1.5 Intercepting the final approach course or track.....	3-1-3
1.6 Termination of flight path monitoring.....	3-1-5
1.7 Track divergence .....	3-1-5
1.8 Suspension of independent parallel approaches to closely spaced parallel runways .....	3-1-5
<b>Section 4. Secondary surveillance radar (SSR) transponder operating procedures .....</b>	<b>4-(i)</b>
Chapter 1. Operation of transponders .....	4-1-1
1.1 General .....	4-1-1
1.2 Use of Mode C.....	4-1-1
1.3 Use of Mode S .....	4-1-2
1.4 Emergency procedures .....	4-1-2
1.5 Communication failure procedures.....	4-1-2
1.6 Unlawful interference with aircraft in flight.....	4-1-2
1.7 Transponder failure procedures when the carriage of a functioning transponder is mandatory.....	4-1-2
Chapter 2. Phraseology.....	4-2-1
2.1 Phraseology used by ATS.....	4-2-1
2.2 Phraseology used by pilots .....	4-2-1
Chapter 3. Operation of airborne collision avoidance system (ACAS) equipment.....	4-3-1
3.1 ACAS overview.....	4-3-1
3.2 Use of ACAS indications .....	4-3-1
3.3 High vertical rate (HVR) encounters.....	4-3-3
Attachment A to Section 4, Chapter 3. ACAS training guidelines for pilots.....	4-3-Att A-1
Attachment B to Section 4, Chapter 3. ACAS high vertical rate (HVR) encounters.....	4-3-Att B-1
<b>Section 5. Operational flight information .....</b>	<b>5-(i)</b>
Chapter 1. Aerodrome surface operations.....	5-1-1
Chapter 2. Read-back of clearances and safety-related information.....	5-2-1
Chapter 3. Stabilized approach procedure .....	5-3-1
3.1 General .....	5-3-1
3.2 Parameters for the stabilized approach .....	5-3-1
3.3 Elements of the stabilized approach .....	5-3-1
3.4 Go-around policy.....	5-3-2

Chapter 4. Reduced power take-off .....	5-4-1
<b>Section 6. Standard operating procedures (SOPs) and checklists .....</b>	<b>6-(i)</b>
Chapter 1. Standard operating procedures (SOPs).....	6-1-1
1.1 General .....	6-1-1
1.2 SOPs objectives.....	6-1-1
1.3 SOPs design.....	6-1-1
1.4 SOPs implementation and use .....	6-1-2
Chapter 2. Checklists .....	6-2-1
2.1 General .....	6-2-1
2.2 Checklist objectives.....	6-2-1
2.3 Checklist design.....	6-2-2
Chapter 3. Crew briefings .....	6-3-1
3.1 General .....	6-3-1
3.2 Objectives .....	6-3-1
3.3 Principles .....	6-3-1
3.4 Application .....	6-3-2
3.5 Scope .....	6-3-2
<b>Section 7. Voice communication procedures and controller-pilot data link communications procedures.....</b>	<b>7-(i)</b>
<b>Section 8. Airborne surveillance .....</b>	<b>8-(i)</b>
Chapter 1. Operation of automatic dependent surveillance — broadcast IN (ADS-B IN) traffic display .....	8-1-1
1.1 ADS-B IN traffic display overview .....	8-1-1
1.2 Use of information provided by ADS-B IN traffic display .....	8-1-1
<b>Section 9. Noise abatement procedures .....</b>	<b>9-(i)</b>
Chapter 1. General noise abatement information.....	9-1-1
Chapter 2. Noise preferential runways and routes .....	9-2-1
2.1 Noise preferential runways.....	9-2-1
2.2 Noise preferential routes.....	9-2-2
Chapter 3. Aeroplane operating procedures.....	9-3-1
3.1 Introduction .....	9-3-1
3.2 Operational limitations .....	9-3-1
3.3 Development of procedures.....	9-3-2
3.4 Aeroplane operating procedures — Approach .....	9-3-2
3.5 Aeroplane operating procedures — Landing.....	9-3-4
3.6 Displaced thresholds.....	9-3-4

3.7 Configuration and speed changes .....	9-3-4
3.8 Upper limit .....	9-3-4
3.9 Communications .....	9-3-4
Appendix to Chapter 3. Noise abatement departure climb guidance .....	9-3-App-1

# FOREWORD

## 1. INTRODUCTION

1.1 The *Procedures for Air Navigation Services — Aircraft Operations* (PANS-OPS) consists of three volumes as follows:

Volume I — *Flight Procedures*

Volume II — *Construction of Visual and Instrument Flight Procedures*

Volume III — *Aircraft Operating Procedures*

The division of the PANS-OPS into the two volumes was accomplished in 1979 as a result of an extensive amendment to the obstacle clearance criteria and the construction of approach-to-land procedures. Prior to 1979, all PANS-OPS material was contained in a single document. Table A shows the origin of amendments together with a list of the principal subjects involved and the dates on which the PANS-OPS and the amendments were approved by the Council and when they became applicable. PANS-OPS, Volume III, applicable in 2018, was created from Part III of Volume I with the intention to separate the provisions related to aircraft operating procedures from the requirements for flying the procedures designed in accordance with the criteria provided in Volume II.

1.2 Volume I — *Flight Procedures* describes the operational requirements for flying the procedures designed in accordance with the criteria provided in Volume II.

1.3 Volume II — *Construction of Visual and Instrument Flight Procedures* is intended for the guidance of procedures specialists and describes the essential areas and obstacle clearance requirements for the achievement of safe, regular instrument flight operations. It provides the basic guidelines to States, and those operators and organizations producing instrument flight charts that will result in uniform practices at all aerodromes where instrument flight procedures are carried out.

1.4 Volume III — *Aircraft Operating Procedures* describes operational procedures recommended for the guidance of flight operations personnel and flight crew.

1.5 All three volumes present coverage of operational practices that are beyond the scope of Standards and Recommended Practices (SARPs) but with respect to which a measure of international uniformity is desirable.

1.6 The design of procedures in accordance with PANS-OPS criteria assumes normal operations. It is the responsibility of the operator to provide contingency procedures for abnormal and emergency operations.

## 2. COMMENTARY ON THE MATERIAL CONTAINED IN VOLUME III

### 2.1 Section 2 — *Altimeter setting procedures*

The altimeter setting procedures were developed from the basic principles established by the third session of the Operations Division in 1949 and are the result of evolution through the recommendations of a number of Regional Air Navigation Meetings. They formerly appeared as Part 1 of the *Regional Supplementary Procedures* (Doc 7030) and had previously been approved by the Council for use in the majority of ICAO regions as supplementary procedures.
