JIS K 0311 : 2008

**Method for determination of tetra-through
octachlorodibenzo-p-dioxins,
tetra-through octachlorodibenzofurans
and dioxin-like polychlorinatedbiphenyls
in stationary source emissions
(Amendment 1)**

JIS K 0311 : 2005 has been revised under date of January 20, 2008. The revised items are included in this Amendment 1 and use this in combination with JIS K 0311 : 2005.

Foreword

This translation has been made based on the original Japanese Industrial Standard revised by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee in accordance with the Industrial Standardization Law.

Consequently, JIS K 0311:2005 is partially replaced with this Amendment.

Date of Establishment: 1999-09-20

Date of Revision: 2008-01-20

Date of Public Notice in Official Gazette: 2008-01-21

Investigated by: Japanese Industrial Standards Committee
Standards Board

Technical Committee on Environment and Recycling Policy

JIS K 0311: 2008, First English edition published in 2008-03

Method for determination of tetra-through octachlorodibenzo-p-dioxins, tetra-through octachlorodibenzofurans and dioxin-like polychlorinatedbiphenyls in stationary source emissions (Amendment 1)

JIS K 0311 : 2005 is revised as follows.

This revision applies from April 1st, 2008.

8.3 Change to toxicity equivalency (TEQ)

In table 9, replace
