

# UL 2610

## STANDARD FOR SAFETY

### Commercial Premises Security Alarm Units and Systems

UL Standard for Safety for Commercial Premises Security Alarm Units and Systems, UL 2610

Second Edition, Dated April 7, 2021

### ***Summary of Topics***

***This new edition of ANSI/UL 2610 dated April 7, 2021 contains several editorial changes, clarifications and technology updates.***

The revised requirements are substantially in accordance with Proposal(s) on this subject dated October 23, 2020 and January 27, 2021.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

## **UL 2610**

### **Standard for Commercial Premises Security Alarm Units and Systems**

First Edition – November, 2018

#### **Second Edition**

**April 7, 2021**

This ANSI/UL Standard for Safety consists of the Second Edition.

The most recent designation of ANSI/UL 2610 as an American National Standard (ANSI) occurred on April 7, 2021. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, and Title Page.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <https://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

### INTRODUCTION

|     |                                              |    |
|-----|----------------------------------------------|----|
| 1   | Scope .....                                  | 9  |
| 1.1 | General .....                                | 9  |
| 1.2 | Central station burglar alarm.....           | 9  |
| 1.3 | Police station connected burglar alarm ..... | 9  |
| 1.4 | Local burglar alarm .....                    | 10 |
| 1.5 | Proprietary burglar alarm.....               | 10 |
| 1.6 | Holdup alarm.....                            | 11 |
| 1.7 | Digital alarm communicator units .....       | 11 |
| 1.8 | Burglar alarm power supplies .....           | 11 |
| 1.9 | Common requirements .....                    | 12 |
| 2   | Components .....                             | 12 |
| 3   | Units of Measurement .....                   | 13 |
| 4   | Undated References .....                     | 13 |
| 5   | Terminology .....                            | 13 |
| 6   | Glossary .....                               | 13 |
| 7   | Information Required for Assessment .....    | 24 |
| 8   | Version Number .....                         | 24 |

### CONSTRUCTION

#### ASSEMBLY

|       |                                           |    |
|-------|-------------------------------------------|----|
| 9     | General .....                             | 24 |
| 9.1   | Specific product requirements .....       | 24 |
| 9.2   | Product assembly .....                    | 25 |
| 9.3   | Electrical protection .....               | 25 |
| 10    | Servicing Protection .....                | 25 |
| 10.1  | General.....                              | 25 |
| 10.2  | Trained service personnel .....           | 26 |
| 10.3  | Antenna terminal discharge assembly ..... | 26 |
| 11    | Enclosures .....                          | 27 |
| 11.1  | General.....                              | 27 |
| 11.2  | Doors and covers.....                     | 29 |
| 11.3  | Enclosure openings .....                  | 29 |
| 11.4  | Screens and expanded metal.....           | 36 |
| 11.5  | Cast metal.....                           | 36 |
| 11.6  | Sheet metal .....                         | 37 |
| 11.7  | Polymeric materials.....                  | 39 |
| 11.8  | Internal materials .....                  | 40 |
| 11.9  | Product enclosure mounting .....          | 41 |
| 11.10 | Battery compartments .....                | 41 |
| 11.11 | Alarm sounding devices .....              | 41 |
| 12    | Electric Shock .....                      | 42 |
| 13    | Corrosion Protection .....                | 42 |

### FIELD WIRING CONNECTIONS

|    |                                      |    |
|----|--------------------------------------|----|
| 14 | General .....                        | 43 |
| 15 | Cord-Connected Products.....         | 43 |
| 16 | Permanently-Connected Products ..... | 44 |

|      |                                                      |    |
|------|------------------------------------------------------|----|
| 17   | Other Field-Wiring Connections .....                 | 46 |
| 17.1 | General .....                                        | 46 |
| 17.2 | Field-wiring terminals (general application) .....   | 47 |
| 17.3 | Field-wiring terminals (qualified application) ..... | 48 |
| 17.4 | Field-wiring leads .....                             | 49 |
| 17.5 | Power-limited circuits .....                         | 49 |
| 17.6 | Communication circuits .....                         | 50 |
| 18   | Grounding .....                                      | 50 |

## INTERNAL WIRING

|    |                              |    |
|----|------------------------------|----|
| 19 | General .....                | 54 |
| 20 | Wiring Methods .....         | 55 |
| 21 | Separation of Circuits ..... | 56 |

## COMPONENTS, ELECTRICAL

|      |                                                    |    |
|------|----------------------------------------------------|----|
| 22   | General .....                                      | 56 |
| 22.1 | Mounting of components .....                       | 56 |
| 22.2 | Insulating materials .....                         | 57 |
| 22.3 | Current-carrying parts .....                       | 58 |
| 23   | Protective Devices .....                           | 58 |
| 24   | Printed-Wiring Boards .....                        | 59 |
| 25   | Transformers and Coils .....                       | 59 |
| 26   | Semiconductors .....                               | 59 |
| 27   | Across-the-Line Components .....                   | 59 |
| 28   | Capacitors .....                                   | 60 |
| 29   | Voltage-Dropping Resistors .....                   | 60 |
| 30   | Switches .....                                     | 60 |
| 31   | End-of-Line Devices .....                          | 60 |
| 32   | Batteries .....                                    | 61 |
| 32.1 | Rechargeable (secondary) batteries .....           | 61 |
| 32.2 | Nonrechargeable (primary) dry-cell batteries ..... | 61 |
| 32.3 | Lithium batteries .....                            | 62 |

## SPACINGS

|    |                  |    |
|----|------------------|----|
| 33 | General .....    | 62 |
| 34 | Components ..... | 64 |

## PERFORMANCE

|      |                                           |    |
|------|-------------------------------------------|----|
| 35   | All Units .....                           | 64 |
| 35.1 | Specific product information .....        | 64 |
| 35.2 | Test units and data .....                 | 65 |
| 35.3 | Test samples and miscellaneous data ..... | 65 |
| 35.4 | Test voltages .....                       | 65 |

## OPERATION

|      |                                                 |    |
|------|-------------------------------------------------|----|
| 36   | Power Over Communications Cable Equipment ..... | 65 |
| 36.1 | General .....                                   | 65 |
| 36.2 | Installation and operation .....                | 66 |
| 36.3 | Markings .....                                  | 67 |
| 36.4 | Installation and operating instructions .....   | 67 |

|    |                                                                  |     |
|----|------------------------------------------------------------------|-----|
| 37 | Software-Based Receiving Equipment .....                         | 67  |
| 38 | Remote Access .....                                              | 70  |
|    | 38.1 General.....                                                | 70  |
|    | 38.2 Validation of remote access credential.....                 | 71  |
|    | 38.3 Communication .....                                         | 72  |
|    | 38.4 Communication data integrity standards .....                | 73  |
|    | 38.5 Software/firmware upgrade.....                              | 73  |
|    | 38.6 Data integrity standards .....                              | 74  |
|    | 38.7 Software/firmware deployment process .....                  | 75  |
|    | 38.8 Event log.....                                              | 75  |
|    | 38.9 Remote diagnostics connection .....                         | 76  |
|    | 38.10 Remote service and maintenance .....                       | 76  |
| 39 | Normal Operation Tests .....                                     | 76  |
|    | 39.1 General.....                                                | 76  |
|    | 39.2 Burglar alarm – central station; proprietary.....           | 78  |
|    | 39.3 Burglar alarm – police station connected; local.....        | 79  |
|    | 39.4 Holdup alarm.....                                           | 82  |
|    | 39.5 Burglar alarm power supplies.....                           | 83  |
|    | 39.6 Outside alarm devices.....                                  | 83  |
|    | 39.7 Intrusion and perimeter detection devices.....              | 83  |
| 40 | Communication Operation Tests .....                              | 84  |
|    | 40.1 General.....                                                | 84  |
|    | 40.2 Single path transmission methods.....                       | 85  |
|    | 40.3 Transmitter systems.....                                    | 86  |
|    | 40.4 One-way radio (RF) systems .....                            | 92  |
|    | 40.5 Two-way radio (RF) systems .....                            | 92  |
|    | 40.6 Multiplex systems .....                                     | 92  |
|    | 40.7 Packet switched data networks (PSDN).....                   | 94  |
|    | 40.8 Dual path transmission methods .....                        | 95  |
|    | 40.9 Central/proprietary/police (monitoring) station units ..... | 98  |
|    | 40.10 Automation system units .....                              | 98  |
|    | 40.11 Satellite/subsidiary stations.....                         | 98  |
|    | 40.12 Private radio facilities .....                             | 99  |
|    | 40.13 Acknowledgment signal.....                                 | 100 |
|    | 40.14 Standard line security equipment .....                     | 100 |
|    | 40.15 Encrypted line security equipment.....                     | 101 |
| 41 | Electrical Supervision Test .....                                | 102 |

## COMMON TESTS

|    |                                                                 |     |
|----|-----------------------------------------------------------------|-----|
| 42 | Incorrect Connection Test .....                                 | 103 |
| 43 | Input Measurement Test .....                                    | 104 |
| 44 | Output Measurement Test.....                                    | 104 |
| 45 | Power-Limited Circuits Test.....                                | 105 |
|    | 45.1 General.....                                               | 105 |
|    | 45.2 Maximum voltage .....                                      | 107 |
|    | 45.3 Maximum current.....                                       | 107 |
|    | 45.4 $V_{A_{max}}$ (not inherently limited circuits only) ..... | 107 |
| 46 | Undervoltage Operation Test.....                                | 108 |
| 47 | Overvoltage Operation Test .....                                | 108 |
| 48 | Variable Ambient Test .....                                     | 108 |
| 49 | Humidity Test .....                                             | 109 |
| 50 | Leakage Current Test .....                                      | 109 |
| 51 | Electric Shock Current Test .....                               | 112 |
| 52 | Overload Test.....                                              | 115 |
|    | 52.1 General.....                                               | 115 |

|    |                                                                        |     |
|----|------------------------------------------------------------------------|-----|
|    | 52.2 Separately energized circuits .....                               | 116 |
|    | 52.3 Power supplies .....                                              | 116 |
| 53 | Endurance Test .....                                                   | 116 |
|    | 53.1 General.....                                                      | 116 |
|    | 53.2 Police station connected and local burglar alarm units .....      | 117 |
|    | 53.3 Power supplies .....                                              | 117 |
|    | 53.4 Integral operating devices .....                                  | 118 |
|    | 53.5 Separately energized circuits .....                               | 118 |
| 54 | Jarring Test .....                                                     | 118 |
| 55 | Dielectric Voltage-Withstand Test .....                                | 120 |
| 56 | Temperature Test .....                                                 | 121 |
| 57 | Power Failure Test.....                                                | 125 |
|    | 57.1 General.....                                                      | 125 |
|    | 57.2 Rechargeable (secondary) batteries.....                           | 126 |
|    | 57.3 Nonrechargeable (primary) batteries .....                         | 126 |
|    | 57.4 Test method – general.....                                        | 127 |
|    | 57.5 Test method – proprietary burglar alarm.....                      | 128 |
|    | 57.6 Test method – holdup alarm.....                                   | 129 |
|    | 57.7 Test method – power supplies.....                                 | 129 |
|    | 57.8 Test method – digital alarm communicator transmitters (DACT)..... | 130 |
| 58 | Abnormal Operation Test .....                                          | 130 |
| 59 | Electrical Transient Tests .....                                       | 131 |
|    | 59.1 General.....                                                      | 131 |
|    | 59.2 Supply line transients .....                                      | 131 |
|    | 59.3 Internally induced transients .....                               | 131 |
|    | 59.4 Input/output circuit transients .....                             | 131 |
| 60 | Radio Frequency Interference (RFI) Test .....                          | 139 |
| 61 | AC Induction Test .....                                                | 140 |
| 62 | Polymeric Materials Test .....                                         | 141 |
| 63 | Battery Replacement Test .....                                         | 141 |
| 64 | Drop Test.....                                                         | 141 |
| 65 | Strain Relief Test .....                                               | 142 |
|    | 65.1 Supply cord .....                                                 | 142 |
|    | 65.2 Field-wiring leads.....                                           | 142 |
| 66 | Mechanical Strength Tests for Enclosures .....                         | 142 |
| 67 | Attack Tests .....                                                     | 143 |
|    | 67.1 General.....                                                      | 143 |
|    | 67.2 Mercantile premises alarm applications .....                      | 144 |
|    | 67.3 Bank safe and vault alarm applications.....                       | 146 |
| 68 | Special Terminal Assemblies Tests .....                                | 147 |
|    | 68.1 General.....                                                      | 147 |
|    | 68.2 Disconnection and reconnection .....                              | 147 |
|    | 68.3 Flexing test .....                                                | 147 |
|    | 68.4 Millivolt drop test.....                                          | 148 |
|    | 68.5 Temperature test .....                                            | 148 |
| 69 | Short Range Radio Frequency (RF) Tests .....                           | 148 |
|    | 69.1 General.....                                                      | 148 |
|    | 69.2 Reference level determination .....                               | 149 |
|    | 69.3 Interference immunity test .....                                  | 150 |
|    | 69.4 Frequency selectivity test .....                                  | 150 |
|    | 69.5 Clash test.....                                                   | 151 |
|    | 69.6 Clash error test.....                                             | 151 |
|    | 69.7 Error (falsing) rate test.....                                    | 152 |
|    | 69.8 Throughput rate test.....                                         | 153 |
|    | 69.9 Time to report alarm test.....                                    | 154 |
|    | 69.10 Inoperative transmitter reporting test .....                     | 154 |

|       |                                                 |     |
|-------|-------------------------------------------------|-----|
| 69.11 | Battery status indication test .....            | 155 |
| 69.12 | Tamper protection test.....                     | 155 |
| 69.13 | Interference protection test .....              | 155 |
| 69.14 | Transmitter stability test.....                 | 156 |
| 69.15 | Transmitter accelerated aging test.....         | 156 |
| 69.16 | Operability test – holdup alarm.....            | 156 |
| 69.17 | Drop test – holdup alarm .....                  | 156 |
| 69.18 | Installation instructions and user manual ..... | 156 |
| 70    | Long-Range Radio Frequency (RF) Devices .....   | 157 |

## OUTDOOR USE EQUIPMENT

### ASSEMBLY

|      |                                                  |     |
|------|--------------------------------------------------|-----|
| 71   | General .....                                    | 157 |
| 72   | Construction .....                               | 157 |
| 72.1 | General.....                                     | 157 |
| 72.2 | Corrosion protection.....                        | 158 |
| 73   | Field-Wiring Connections .....                   | 159 |
| 74   | Internal Wiring .....                            | 159 |
| 75   | Components, Electrical Insulating Material ..... | 160 |

### PERFORMANCE

|      |                                                                                                |     |
|------|------------------------------------------------------------------------------------------------|-----|
| 76   | Rain Test .....                                                                                | 161 |
| 77   | Dust Test .....                                                                                | 164 |
| 78   | Variable Ambient Test – Outdoor Use .....                                                      | 164 |
| 79   | Metallic Coating Thickness Test .....                                                          | 164 |
| 80   | Corrosion Tests .....                                                                          | 166 |
| 80.1 | General.....                                                                                   | 166 |
| 80.2 | Salt spray (fog) .....                                                                         | 166 |
| 80.3 | Moist hydrogen sulfide (H <sub>2</sub> S) – air mixture .....                                  | 167 |
| 80.4 | Moist carbon dioxide (CO <sub>2</sub> ) – sulfur dioxide (SO <sub>2</sub> ) – air mixture..... | 167 |
| 80.5 | Alternate corrosion test (21-Day).....                                                         | 167 |
| 81   | Ultraviolet Light and Water Exposure Tests.....                                                | 168 |
| 82   | Accelerated Aging Tests for Gaskets, Sealing Compounds, and Adhesives .....                    | 168 |

### ACCESSORY EQUIPMENT

|    |                                       |     |
|----|---------------------------------------|-----|
| 83 | General .....                         | 171 |
| 84 | Construction .....                    | 171 |
| 85 | Performance (Installation) Test ..... | 171 |

### MANUFACTURING AND PRODUCTION LINE TESTS FOR HIGH-VOLTAGE PRODUCTS

|    |                                                        |     |
|----|--------------------------------------------------------|-----|
| 86 | General .....                                          | 172 |
| 87 | Production Line Dielectric Voltage-Withstand Test..... | 172 |
| 88 | Production Line Grounding Continuity Test.....         | 173 |

### MARKINGS

|    |                                |     |
|----|--------------------------------|-----|
| 89 | General .....                  | 173 |
| 90 | Marking Permanency Tests ..... | 176 |
